Download:Plex Media Server (Free)Which Is the Best Device to Use as a Plex Media Server?Users are faced with a considerable number of choices.. To get the system up and running, you need to designate at least one of your devices as the server.. But what are the best devices to use as a Plex media server?Plex is like mission control for your content.. The device on which you're running the Plex Media Server app needs a) to have access to all of your videos, and b) to be running 24/7.. You could feasibly run the Plex Media Server app on a laptop, desktop, mini PC, Android TV device, Raspberry Pi, network-attached storage drive, or any other device on which you can install Linux.. As such, ancient, underpowered laptops might not be suitable However, if you've got a semi-old device lying around, it's worth considering. 34bbb28f04 [Boot Camp 3.1 Download For Mac](#)
